ABOUT THIS FEATURE: This is *not* an attempt to list the state's most powerful lawyers. In order to produce this piece in a compact two-page spread, we had to leave off big moneymakers, titans in specialty areas (i.e. divorce law) and many others. Instead, this item spotlights a limited number of prominent lawyers in Boston (based upon a number of sources' opinions of these lawyers' reputation, skill and "connectedness") and illustrates the way in which they are "linked" in some manner. Certain judges and politicians are included here, too, but only to better illustrate lawyer "circles." This is the product of reporting only; nobody paid to be featured here, as is the case with other publications.
